

## **How to assess the Conservation Practices Link for Ca. Envirothon**

**Step 1:** At the link start, click/select on the part of CA of interest.

**Step 2:** Click/ Select your county/region.

**Step 3:** On the left side Under the FOTG Folder, On the drop down “v” Select Section IV.

**Step 4:** You now see a list of all the Conservation Practices for your use in the CA. Envirothon. Simply select the Conservation Practice you need information on.

**Note:** The standard gives you general information about the practice and the Specification explains the same practice in more detail and usually contains drawings.

**If you have problem with the link, just google or use your search engine for Section 4 conservation practices of the Field Office Technical Guide for USDA-Natural Resources Conservation Service.**
